Those that would create good karma are harmless and do on to others as they would do on thine self; to reiterate - Treat others the way you would treat your self

Please note that the look-a-like pictures are NOT me, they are what was on my mobile phone at the time of taking the photograph, I'm not responsible for the behaviours of the lookalikes, if proven to be good and harmless! that would be fine though I do not need Imposter terra.

Evolution is perpetuated via the most appropriate gene mutation, given internal and external environmental factors based on chemical and quantum affinity, this is science of molecular evolution during meiosis and mitosis (this normal cellular division); However, Darwin (1820) of the battleship-Beadle thought in error that evolution is “survival of the fittest” if all people think Darwin is right - the competitive minds of extremities will cause future chaos, mayhem, and further conflict.

Meaning and purpose of life

The meaning and purpose of life is to live, love and be loved via mutualism or debate and happiness occurs on the Tao/Path of evolution, with love growing on your polarities as you evolve higher levels of consciousness on the Tao/Path/Way.

To understand the abstract concepts on this website a basic knowledge of the Quantum-Field-Theory is necessary

This website does not take any type of donations or charity money (see bio functional foods - a method of feeding the poor)

This website is for the people, Not Monarchism even though my ancestor's were monarchs,

I'm supporting a peaceful referendum to create sustainable peace in the UK.

Yin Yang Quantum Buddhism will help to prevent the repetition of Nostradamus prophecies and help prevent the repetition of history

DNA profiling and face recognition will keep the criminals out of governments, providing the data bases are not corrupted (also see governmental industrialism)

Those that are vegetarian, vegan, and/or raw-food-vegan

quite often have better health than those that are not "Plant based Nutrition - S.Welsh book - 2003"

Balanced moderate thought is reasonableness;

reasonableness leads to humbleness;

humbleness leads to learning opportunities of none-competitiveness;

none-competitiveness leads to love and leaning enhancers;

so the evolution may be positive with harmless universal love.

I'm not a master, my humble self is reasonable.

Those that are wealthy zero 0 = neutrality referencing to universal love actuality
being the position of neutrality on the evolutionary path of personal and intellectual growth.

To understand the Quantum Atmospheric karma Scales it is necessary to understand environmental science and Quantum Biology, together with Quantum Astrological Biology and read book one and Nutrition, functional Foods and Epigenetics; also have a positive intellectual attitude towards your good health (as specified within book one) combined with appropriate nutrition (as would be advised by Nutritionist) and adequate exercise.

The path represents the spiritual journey on the Tao of evolution that is none materialistic, perhaps applicable for all that remain of the path of neutrality evolving with universal-love in a harmless way; The balance achieved with scales and analytical parallel learning techniques helps to maintain celebre-fluid-homeostasis and balance moderate thought, making use of the pseudocertainty together with balanced nutrition and exercise towards your good health.

Possible levels of the Tao

Thers is your Personal Tao – use self-appraisal

The EGO is emotional, intellectual and spiritual immaturity; use self-appraisal to appraise YOUR emotional, intellectual and spiritual maturity - Buddhism teaches humbleness.

Thers is your relationship(s) Tao – use self-appraisal

Thers is your Spirit level Tao – use self-appraisal

Thers is your Soul level Tao – use self-appraisal

Thers is the Tao of divinity that may be encoded within the Human NATRAL Genome/Genetics;

To preserve the natural genetic integrity of gene pools and quantum epigenetic drift together with species diversification so to avoid stem-cell-mutation;

*unrelated Yin/Yang procreation would help maintain natural gene-pools and quality quantum epigenetic drift for future preservation.

The perfect relationship and the patterns of science evolution

This is a bit of a hypothesis, yet to be proven, both polarities of male and female brain is different, the male (yang) and female (Yin) neurological networks are different in density and structural difference.

The difference creates differentiated quantum energy via quantum entanglement (See bitcoin encryption-keys - in book).

A magnet has quantum equilibrium, co-evolution is equilibrium that is an innate noncompetitive patten written in science evolution (i.e. relationships evolve better with pattens of none- competitiveness, as with molecular and quantum evolution, whereby two souls grow and stay together via coevolving mutualism, in accordance with the pattens of science evolution).

Also see: - Astrological Evolution - Towards the evolution of astrology, upgrading astrology into Astrological Quantum Biology.

The perfect relationship and the patterns of science evolution

'Equilibrium of yin-female/yang-male will diminish the divorce rate via Sensitive debate mutualism'

Perfection in a relationship is important as the Tao of the relationship is dependent upon the equilibrium of the polarities of Yin(female) and Yang(male) and sensitive communication.

The rationale is that intuitive balance is associated to Quantum Atmospheric Tao, that is enhanced intuition, the more natural the personalities are the intuitive enhancement that is associated to the third level of understanding of the Tao the true purpose of life (will be explained with the divine Tao, still waiting for the evolved mathematics).

There are two natural ways to evolve on your Tao: via debate or via coevolving mutualism, if you are a Taoist Monk evolution is via debate, though mutualism has been chosen by many: that is via co-evolving mutualism with YinYang balance so to perceive the divine Tao within a natural YinYang relationship. Perhaps some may ask why science is important in relationships and the answer is that the pattens of evolution are

written in nature via universal inflation, quantum evolution and molecular evolution. As with the hypothesis: the origins of the universe (see www.YinYangBuddhism.com); the first quantum polarity initiated the pattens of science evolution, the parallel perception with Yin-Yang coevolving mutualism is that polarity of Yin-Yang is has a similar patten, at quantum level the atmospheric Tao polarity of Yin-Yang is balanced with sensitive communication is the evolution or the Tao of the relationship of which, is correlated with Quantum Astrological Biology by John Lawrence King .

Towards the evolution of astrology, upgrading astrology, into:-

Astrological Quantum Biology

Towards the evolution of astrology, upgrading astrology into astrological quantum biology Astrology has patterns of social behaviour that have been shown within the astrological signs since the Myers culture who were the first astronomers, they calculated the distance of planets/constellations from planet Earth to the planetary constellations.

The patterns of social behaviour associated to each astrological sign corresponds to the astronomical constellation clearly shown within Greek astrology; also, Chinese astrology seems to be more precise because it has more emphasis on the moon cycles. However, Greek astrology is quite wrong in respects to the fact that the

planets do not move around the planet Earth in actual fact the planets revolve around the sun within our solar system in accordance with astronomy.

Planetary interactions, meiosis, mitosis and cerebral fluid Planetary interactions have an effect on meiosis and mitosis via solar interactions yet to be proven via quantum biology. Physiologically, [quantum tunnelling and entanglement are generally thought as the mechanisms of planetary interactions](#), though other quantum interactions also transpire yet to be proven see question: -

Question for the [Quantum-Biologists and Enzymologists](#): -

“How does a cerebral fluid enzyme hold audio and visual memory (e.g., a Chinese character); before, during and after transmission of neurotransmitter from one neuron to another neuron. A laboratory experiment is necessary; whereby simulated cerebral- fluid is within a petri-dish, containing neurotransmitters, neurons and enzymes with a control mechanism transmitting the neurotransmitter along the polarised neuron to the enzyme, and some

mechanism to quantify and qualitatively compute how an enzyme holds memory, other than quantum entanglement and tunnelling; There is some other mechanistic unidentified phenomenon not yet known. If you have a reasonable hypothesis as to how, please do not hesitate to contact me at johnlawrenceking@bio-functional-foods.com for dialogue”.

The solar-space-weather is the measurement of electrons, photons and protons, the electrons coil after/during the magnetic moment together with the different quantum-flavours accounting for the colours red, blue and green quantum flickers/luminosity during a [thermal dependent quantum kinetics](#) that are most probably dependent in electron polarities and vis versa with quantum entanglement/tunnelling and some other **phenomenon** not yet know *level (see: - A laboratory experiment is necessary)*; thereby making photons via the magnetic moment, the hypothesis is that a photon travels in a spiralling system similar to a spiralling-galaxy *(that has an out-put of dark matter)*. see figure 1a: - Figure 1a - Feynman diagram, *(there are an infinite number of Feynman diagrams that are graphical representations of equations)*.

The Feynman diagram shows the Electron positron scattering (called the magnetic moment) where two electrons collide to produce a photon γ , given by diagram

that represent two integrals that are electrons, and the intermediate photon γ is a symbol that carries the quantum numbers of the exchange (*but not mass, as a photon has 0 charge and 0 mass and 1 spin*). The electron scattering exchange is qualitatively even, each other the results between are like and unlike charges that are different, as the two electrons colloid a photon is emitted that last approximately two milliseconds, the quantum electromagnetic waves are indicated by γ that discharges to the other electron and/or quark/antiquark (*depending on diagram*) fields, diagram by (P. Richard approximately 1918-1988 - Feynman), for detail see:-

https://www.google.com/search?q=feynman+diagram&rlz=1C1MQJf_en-GBGB10936B1094&qg=fayman+d&gs_lcrp=EqJ2aHJybWUoDwgBEAAYChIDARiXaXiABDlGCAARRG5mG8iARAAAGoYgVwEYmQYgAQvCQgCEAAyChIABDIJCAkQABgKGIAEMgkIBBAAGoYgAQvCQgFEAAyChIABDIJCAyQABgKGIAEMgkIBxAAAGoYgAQvCQgFEAAyChIABDIJCAkQABgKGIAEYgEKMtWfNDWFqMoxNagCALACAA&source=chrome&ie=UTF-8#yvid=yV2s4DKdbmU64M&vssid=i

During day and night the sun and moon has quantum interactions. The sun interacts via solar flares that are hydrogen explosions from the sun, at night the moon reflects the suns light that quantum interactions; though as Earth move through (*via rotation*) the planetary constellations, planetary-quantum-interactions occur. The planetary-quantum-interactions combine with global consciousness and the sun and moon interactions affecting the physiology at quantum level; significantly for Astrology, Astronomy and Quantum:-

Astrology – over thousands of years astrology has shown social behavioural patterns allied with each planetary constellation.

Astronomy - over thousands of years (since the Myer civilization) Astronomers have been calculating and observing the planetary constellations and quantum

interactions within the perceivable cosmological solar system; referred to as cosmology, **astrophysics/astrobiology** (*space tech*).

Quantum-Biology – Quantum-Biology is quite reascent it is the combination of the discipline of Physics, Biochemistry and physiology to understand the enzymology (also epigenetics) and physiology of humans in a comprehensive way. Now, the combination of Quantum-Biology, Astronomy and Astrology will be a specialism of the three specialisms above with an objective to prove that meiotic, mitotic cell division and all physiology is affected via planetary-quantum interactions; combine with global-consciousness and/or the sun or moon interactions affecting the physiology including cerebral-fluid at quantum *level* (see: - *A laboratory experiment is necessary*). The above combination would be an academic discipline one third of the study should involve laboratory research, a third theory and a third essays, dissertations, theses, depending on the level of study (Concepts thought of during 2002 by John Lawrence King).

Planetary-quantum-interactions the hypothesis is that planetary quantum interactions correspond with the constellations together with planetary interactions upon the physiology via quantum entanglement and tunnelling with some other unknown quantum phenomenon yet to be discovered (see question for the Quantum-Biologists and Enzymologists).

Meiosis occurs before conception during sperm and egg, utilising meiotic cell division; mitotic cell division occurs there with the nine months pregnancy and thereafter. Planetary quantum interactions influence both male and female via both meiosis and mitosis throughout life from preconception into old age.

Thus, the planetary quantum interactions interact throughout life and is shown in social patterns of astrology; not astronomy, even though quantum biology shall eventually prove that the patterns in astrology are average reality for most, as to the question with reference to cerebral fluid quantum enzymic reactions, result in memory retention and transmission from one neuron to the recipient neuron; Therefore, the planetary quantum interactions and consequential

quantum effects on the cerebral-fluid enzyme and resultant social patterns shall be proven and the quantum interactions, once the question specified for the quantum biologists and enzymologists has been answered. Assuming planetary quantum interactions are proven to have impact on the physiology, both enzymology and Epigenetics are affected with resultant patterns; within enzymology that would be cerebral fluid and immunological interactions and with epigenetics, the hypothesis is in a transgenerational way. Thereby, affecting both social patterns and transgenerational epigenetics, as quantum tunnelling interactions are known to interact, also with the DNA structure via quantum affiliate resulting in dynamic chemical-affiliations during epigenetic interactions (KING.J. K - 08.01.2023)

Romantic suggestions linked with astrological quantum Biology (meiosis/mitosis) with an objective of creating an dating app.

biology Romantic suggestions linked with astrological quantum-biology would be very compatible and

coevolving mutual relationships would be long-lasting as the beneficial information provided via the new astrologers of astrological quantum-biology would be very precise, opposed to anecdotal information currently available from a system that sill teaches the earth is the centra of the solar system of which is not true, the sun is the centra of our solar system (KING.J. Within the air we breathe there is entanglement, tunnelling and some additional quantum phenomena interacting with the physiology.

The 2 up & 1 down quarks and 1 up & 2 down quarks would seem to be the quantum mechanics of entanglement interacting between molecular structures of electron polarity change that determine the rotation of enzymic structures in quantum biology; Though in atmospheric physics it would seem the carrier of quantum entanglement is atmospheric h20 (quarks are within the protons of water) and the triangular quark structure within the air we breathe that is the carrier of simultaneous quantum entanglement and tunnelling with some additional quantum phenomena interacting with the physiology.

Synopsis

Discover the fascinating world of nutrition and functional foods with this new textbook from author John Lawrence King. Ideal for beginner to intermediate level students in health education, this paperback publication from amazon covers the latest research and insights into the role of epigenetics in our diet.

Explore the impact of different food groups on our genetic expression, and learn how functional foods can be used to support health and wellness. This comprehensive guide is suitable for adult learners in further education, sixth form college, or vocational school,

Bio Functional Foods/Gels are fortified, fermented and enhanced foods to provide nutrients during drought and flood environments and also to supply the supermarkets, Asda, Tesco, Aldi, Co-op, other super market/retail outlets... and also for charitable organisations.

Fermentation techniques are more productive/faster/more efficient than traditional growing seasonal crops

Bio Functional foods/Gels are gels grown from bacteria, fungi and algae (utilising synthetic biology (see [bio-ethics in book](#)) and fermentation), grown under laboratory conditions on an industrial scale. The functional gels/foods would contain NAD⁺, Sirtuins, trans-resveratrol, protein, minerals, vitamins and other health beneficial ingredients also derived from fruit/vegetables.

The tofu-like-jelly-blocks of functional foods would be in different colours to represent different nutrients that have both nutritional and health benefits, perhaps complement or even replacement of fruit and vegetables in the future due to long shelf life(1 year); Specifically Bio-Functional-Gels/foods are to freely feed populations after/during droughts, floods and wasteland/desert environments, though reforestation is often possible.

The dynamic statistics derived from invention [number eight](#), the [Bio-Marker-Watch](#) would indicate the appropriate colour Bio-Functional-Food/Gels.

Bio functional gels/foods are an solution to environmental problems that are likely to occur in the future also the production techniques make bio-mass calculations not so important with respect to the potentiality of photosynthesis.

The materialism generated via the supermarkets would generate necessary cash-flow to supply the distribution-charities that would not rely on donations so to freely supply bio-functional-foods/gels to other charities and feed the poor during future environmental catastrophes due to pollution/climatic changes (please note: the next ice-age is not due for 50.000 years); also note no person(s) is/are obligated to supply food to populations, or to improve the environment.

This business venture proposal, for experienced biotech industrialists(perhaps even Temple/Monastery(s) with the right type of help) interested in investing into the manufacture of bio-functional-gels, the researchers with recent lab-based-experience are required though.

The companies would have charity (not for profit) status and comprise of three elements:-

- *A manufacturing industrial unit(s)*
- *A sales organisation(s)*
- *A charities(s) for the distribution of Bio-Functional-Gels*

The companies would be distributed in different countries, if you are interested and from a industrial food processing manufacturing company or harmless organisations; interested in the manufacture of Bio-Functional-Food/Gels please send your inquiries to johnlawrenceking@bio-functional-foods.com

Please note, this is NOT a franchise, it is a philanthropical (not for profit) business opportunity whereby the companies would be economically self-reliant as the income generated from sales to supermarkets/retail outlets would have resultant independent autonomy, and help feed the poor; if any would like to help with a cash-flow-forecast towards please send to: johnlawrenceking@biofunctionalgels.charity also eventually a instruction book on how to manufacture Bio Function Food/GelsTm

A lot of research is required to achieve Bio-Functional-Gels, perhaps an harmless established biotechnology organisation(s) would be interested? or Perhaps large corporate organisation(s) ?; One UK company has been established by me though not trading yet! at this time I have no funds to start the company: <https://find-and-update.company-information.service.gov.uk/company/14645535/filing-history> though I shall eventually have funding to begin trading.

Those individuals that intend to communicate with the real author/inventor the only way is via email: johnlawrenceking@bio-functional-foods.com or mail.

John Lawrence King

In the UK, equilibrium between left and right would perhaps unite the Welsh, Scottish, Irish, and English people in Peace via a voting/Referendum system; this patten of equilibrium sustainability would create/make and keep long-term-sustainable-peace elsewhere, peace could be created if antagonistic-opposites in Christianity Where/are reduced (perhaps via co-evolving mutualism); and as there has been no sustainable peace in the UK for thousands of years a referendum for no monarch on the throne in the UK so to stop the monarch(s) competitive behaviour and bring long term peace with the UK populous.

The 3rd-way is when the monarch puppeteers do not enslave governments (or any others) like puppets; and monarchs allow the real energy from the origin to thrive (see origin of the universe hypotheses).

Those that have been enslaved are vulnerable to blackmail and perhaps should not be in governments.

During peace-times governments become strong providing they’re not blackmailed into corruption;

The solution to long-term-global-peace is compatible political philosophies, perhaps The peoples democratic republic parties would make and keep sustainable peace (see structure of the Analytical Pece Keeping System/Model). About the devil games:

Do not blame the 666 devils for anything, the devils are NOT an escape for your questionable behaviour, Windsor/Mountbatten/Stewart monarch devil games (that began on the 06.06.1963 at 2am UK-time; the monarch devil- game's had negative affect on the world thereafter 1966;

Those that have been playing devil-games are in the shadows of the dark cave Plato refers to (in classic Greek text); are those in Plato's dark cave dark cave of dishonesty, corruption and criminality.

use self-appraisal to see where you were/are on your forever-changing scales of awareness.

“ignorance is the enemy of intellectualism” Written by John Lawrence King

The O represent evolution in the light of Yin/Yang Quantum Buddhism as the basis of Quantum and Molecular science is the light of truth, or the reality of science(s) mixed with science Hypothesis(s) and [A list of Sciences invention's by John Lawrence King](#) that are forever lasting once proven by scientist(s). Written by John Lawrence King (not you).

The monarchs are lying and later bullying governments into being obedient and blaming the devil, those borne on a 666 day! take care on 06.06.2026 and the Month of June 2066. Towards the solution is: [www.yinyangquantumbuddhism.tech](#) and [www.quantumsciencerenaisance.com](#) be wary of those pursuing wealth and power during 2026 and 2066, those pursuing love and harmless happiness are trusted.

Thus, there is negative or positive evolution during the quantum science renaissance, in the event of diplomatic governmentalism (not dictative monarchism) and the bible is rewritten, there will be long term sustainable peace; if the bible is not rewrote before the 2026 devil-game there will be chaos, mayhem and conflicts...

The UK 17th century monarch has been competitive against the UK 6th 12th and 15th century monarch since the 17th century, the competitive behaviours of the UK 17th century monarch has not change other than the competitive behaviours are hidden. Those on the internet trying to supress my website for money are the scammers, they may be involved in more corruption for money then we know; I advise that those suppressive scammers be investigated for fraud and corruption!

During 1918 the Stewart Monarch was involved with negative engineering at the devils expense; the Stewart Monarch was playing devil with Freud, Jung and a Mathematician whilst abusing a devil during 1919 when the UK Police were established during 1919 all basted on devil games that began with the romans about 50 years A.D. previous to approximately 50 years A.D the romans used the Greek system of the ‘Greek Gods’ that was actually the Monarchs competing for more power and wealth during B.C

I'm getting terrorized at night whist sleeping for being good and harmless by you know whom in the UK, perhaps it is because 666 devils always get blamed for other people's behaviour, the real fault is in Christianity. Three 666 devil(s) have difficulty finding a spouse because of the devil-games via people like you if you are a player Analytical self-appraisal is required of you!

The devil player(s) are often involved in insurance-fraud so I invite all insurance-fraud-investigators on my websites in the name of crime prevention.

Often people sell their soul for worthless money or power so that the ones that sell their souls’ for money or power - have no after-life or compromised after-life, this is enslavement.

Love and harmless happiness is worth more than enslavement via various enslavement techniques that the monarchs use to gain power and control other others in life and after life, do not sell your soul of which is far beyond tangible value.

Do not build your house on cruption/sand(bible), build on legality!

If this website changes in support of military or monarchism, that will mean I'm I've been hacked/threatened they want to promote military and monarchism of which I will not support, please Keep the Monarchs off this website using harmless legal techniques

also see: A system of analytical peace keeping

Is there any laws protecting the 666 devils from the abuse of Christian system, I can't find love because of the criminal-minds

Bribery = corruption = the dark cave of dishonesty = chaos, mayhem and eventual conflict during the devil games from 06.06.2026 to 2070 if the evil thrives with bribery and corruption.....; This is the reason why history repeats every 100 and 1000-year cycle; history has been repeating for over 6000 years with similar pattens Any person can analyse the pattern if the fragments of history are known.

The game of thrones books(that were written by the Winsors) will be neutralised with a peaceful referendum-vote for NO monarch on the throne.

This is an UK website please be moderate, harmless and respectful of UK law on these UK website(s) and be harmless.

Evolution is perpetuated via the most appropriate gene mutation, given internal and external environmental factors based on chemical and quantum affinity, this is science of molecular evolution during meiosis and mitosis (this normal cellular division); However, Darwin (1820) of the battleship-Beadle thought in error that evolution is “survival of the fittest” if all people think Darwin is right - the competitive minds of extremities will cause future chaos, mayhem, and further conflict.

Please note this website is for keeping peace, evolution with compilatory and tolerant understand and with universal love with the people's belief system for current and future times periods during this 100-year cycle.

1. select two or more bacteria species and/or strains of bacteria to work with (e.g E.coli.....)
2. stain the different strains and/or species of bacteria as they grow with contrasting coloured stains

some Quantum-
resonance via
colour/sound of music
that is the result
of quark-flavour
changes via quantum
entanglement affecting
the quark-flavours;

The invention of
Quantum_Atmospheric_Chromatography
equipment would interpret the flavours
of quantum quark so that the different
colours of the resultant resonating
sound be shown upon a graphical
display, this is precise science of music:-

The above perhaps may be utilised for sound and colour therapy in the future after the Quantum_Atmospheric_Chromatography equipment and other Quantum equipment proves that colour therapy actually works. Also Quantum_Atmospheric_Chromatography equipment may perhaps be utilise for quantum atmospheric studies for temperature dependent ozone replenishment.

The quantum Quarks = blue
The quantum Bosons = yellow and green
The quantum Leptons = red

The postulated science hypotheses that the quantum quark(s), boson(s) and lepton(s) within the quantum fields interact with quantum-sound-resonance; the question to be proven or disproven is that the quantum quark(s), boson(s) and lepton(s) have quantum-polarity, and that the quantum affinities/interactions are dependent upon the quantum polarity changes; that make the quantum-flavours change in accordance to polarity affinities, in turn this changes the quantum-flavours;

Utilising the quantum equilibrium of the quantum polarities, measuring the quantum polarities that each colour of the flavours of the fluctuating quacks can be measured and represented in that dynamic video system of the quantum_atmospheric_chromatography machine.

Thus, the quantum-flavours change according to quantum affiliate, as the resultant effect of the quantum-sound-resonance the induces the polarity change(s). The above shall be proven with the sciences inventions: - Quantum-Atmospheric-Chromatography-Machines, combined with a dynamic video system to display the results and effects on the physiology at quantum level; this could take some years to evolve though the results would be worthy of the investment in to the necessary research in to achieving the Quantum-Atmospheric-Chromatography-Machines.
